I sincerely appreciate the valuable comments and constructive suggestions provided by the reviewers and the editorial team, which have contributed significantly to improving the quality and clarity of the manuscript. I would also like to transparently clarify that I do not have access to specialized software for checking AI-generated content. Artificial intelligence tools were used only as supportive tools during the preparation and revision process, particularly for language improvement, proofreading, and enhancing the clarity of the academic writing. I remain fully responsible for the scientific content, analysis, interpretations, references, and conclusions presented in the manuscript. Therefore, if the journal's screening process identifies any concerns regarding AI-generated content or any sections that require further revision, I would be very grateful if the editorial team could kindly inform me. I will be pleased to revise any such sections in accordance with the journal's requirements and policies.
