“We would like to highlight our extremely positive impression of the review process carried out in the journal WSEAS TRANSACTIONS on Biology and Biomedicine.

In particular, we greatly appreciate the rigorous peer review process to which our work was subjected. We wish to express our sincere appreciation and deep respect for the comments provided by the reviewers. Their observations were extremely enriching and constructive for our work. All three reviewers provided insightful recommendations that allowed us to improve the quality of our article.

It is important to note that the criticisms were directed to the introduction, the methodological part, which we transformed into a more detailed and understandable exposition. We are sincerely grateful for the opportunity to have addressed these aspects and to have made the corresponding corrections, which has contributed significantly to strengthening the soundness of our work.

We would like to extend our deepest gratitude for your collaboration and for giving us the opportunity to improve and enrich our article. We look forward to future collaborations and appreciate the joint effort for the advancement of research in the field of biology and biomedicine. We are impressed with the agility of the WSEAS magazine, they receive the required documents in a timely manner, make the necessary corrections for publication and provide facilities for the completion of the process”.
