I declare, I confirm, I certify and I sign that I received substantial, important, line by line peer review with several and substantial comments, important remarks and hints from, at least, 3 Reviewers and the Assistant Editor for my paper: Investigating **The Effects of Audio Exposure toward Podcast Listener Loyalty via Theory of Planned Behavior (A Study on Urban Millennials in Jakarta)** with Authors: **JERRY S JUSTIANTO, MTS ARIEF, INDAH SUSILOWATI, MUHAMAD ARAS, GILANG SAPUTRA**

I would like to thank all the reviewers for their thoughtful comments and efforts towards improving our manuscript. We revised the manuscript with special attention to the comments that we received from **.....Three (3).....**

Reviewer 1 : A better classification and a comparative analysis between the publications cited in the 'introduction' and 'literature review' sections would be useful. We have revised this research by adding several comparative studies. For readers to quickly catch the contribution in this work, it would be better to highlight major difficulties and challenges, and your original achievements to overcome them, in a clearer way in abstract and introduction. we have added some contributions to this research in the introduction

Reviewer 2 : It is mentioned in section 4.2 that 'Based on the results of these calculations, because there is no construct reliability value whose value is below 0.50, all constructs in this study are feasible to use.' More justification should be furnished on this issue. We've revised how to determine construct reliability values.

Reviewer 3 : Can the author explain with more details why this study is useful for the readers of the respected journal? We have added usefulness for the reader to this research in the introduction and Implication sections

(<-write the correct number) reviewers that were experts, specialists in the area of my paper.
