I would like to thank all the reviewers for their thoughtful comments and efforts towards improving our manuscript. We revised the manuscript with special attention to the comments that we received from **Three (3)** reviewers that were experts, specialists in the area of my paper. This is my first time submitting a journal article for publication as part of the requirements for my Master's in Environmental Management. I am deeply grateful to the WSEAS Editorial Team for providing me with the opportunity to share my research on greenhouse gas emissions from organic and conventional farming. Studies like this are limited in the Philippine context and internationally, so I hope our work can provide meaningful contributions to the field.

I sincerely thank the reviewers for their valuable comments and suggestions, which have significantly improved the quality of my paper. I would highly recommend the WSEAS journal to my colleagues for future publications and hope that our study will help further strengthen the journal's reputation as a Scopus-indexed publication.
