with Authors:

Josef Pavlíček, Petra Pavlíčková, Irena Štrausová

I would like to thank all the reviewers for their thoughtful comments and efforts towards improving our manuscript. We revised the manuscript with special attention to the comments that we received from three (3) reviewers who were experts and specialists in the area of the paper.

The revisions focused on clarifying the formal mathematical model, strengthening the methodological explanation of the eye-tracking study, improving structural clarity, and adding a conceptual comparison with related approaches. The scientific content, results, and conclusions of the paper were preserved, while the presentation and methodological transparency were significantly improved.
