We are glad that we published one of our good papers in WSEAS Transactions. In Mathematics the title of our paper is Application of the bilateral hybrid methods to solving initial-value problems for the Volterra integro-differential equations and has been accepted in WSEAS Transactions on Mathematics. We made the significant improvements that the reviewers proposed on the paper in order to submit the final version for the WSEAS transactions on Mathematics. I am glad that paper will be published in this journal soon and I thank the Editor in Chief, Associate Editor and the team of 3 reviewers.
