I declare, I confirm, I certify and I sign that I received substantial, important, line by line peer review with several and substantial comments, important remarks and hints from 3 Reviewers and the Assistant Editor for my paper:

Nonlinear Dynamics and Bifurcation Structure of a Stage-Structured Theta-Ricker Map with Cross-Stage Feedback.

with Authors: Hafidh Khoerul Fata and Nurcahya Yulian Ashar. I would like to thank all the reviewers for their thoughtful comments and efforts towards improving our manuscript. We revised the manuscript with special attention to the comments that we received from **Three (3)** reviewers that were experts, specialists in the area of my paper. I declare, confirm, certify and sign that WSEAS has checked my paper for possible plagiarism by Turnitin and my paper was found without plagiarism or self-plagiarism by Turnitin. I also declare, confirm, certify and sign that also that no Associate-Editor, no Editor-in-Chief, no member of the WSEAS Secretariat forced me in this Journal to add references (citations) to any previous publications of the journal.

I also declare, confirm, certify and sign that I have made all the changes, modifications, additions, studies, corrections asked by the reviewers and I have fully complied with their instructions. I also understand that before the publication the 3 reviewers will check my paper to see if all the changes, modifications, additions, studies, corrections etc have been done and I authorize the WSEAS to publish my paper or to reject my paper even in the 2nd round of peer review or to continue with an additional round of peer review.

I also declare, confirm, certify and sign that I will not publish this paper or an important part of the paper in any other Journal (inside or outside WSEAS) Conference Proceedings (inside or outside WSEAS), Book (inside or outside WSEAS), University Repository etc) without the written permission of the WSEAS.

I also declare, confirm, certify and sign that this paper or an important part of the paper has not been published other Journal (inside or outside WSEAS) Conference Proceedings (inside or outside WSEAS), Book (inside or outside WSEAS), University Repository etc). In case of violation of the above terms, WSEAS can reject any unpublished paper or even retract any published paper.

The reports were detailed and constructive, going well beyond a superficial check of the manuscript. The reviewers pointed out technical issues, suggested clearer formulations of the main results, and recommended improvements for the figures and the presentation of the bifurcation analysis. Their suggestions significantly improved the clarity, rigor, and overall quality of the paper.

Communication with the Assistant Editor and the editorial office was efficient and professional at every stage of the process. The time from submission to final decision was reasonable, while the scientific standards of the review were high. Based on this experience, I am satisfied with the editorial and review process of the WSEAS journal and would consider submitting further work in nonlinear dynamics and applied mathematics in the future.

Date: 10 November 2025

A handwritten signature in black ink, consisting of a series of loops and a long horizontal stroke at the end.
