I certify that I received substantial, important, line by line peer review with several and substantial comments, important remarks and hints from 3 Reviewers and the Assistant Editor of the WSEAS Journal: WSEAS TRANSACTIONS ON SYSTEMS AND CONTROL for my paper: **Efficient technique for facial image recognition with support vector machines in 2D images with cross-validation in Matlab**

I would like to thank all the reviewers for their thoughtful comments and efforts towards improving our manuscript. We revised the manuscript with special attention to the comments that we received from 3 reviewers that they were experts, specialist in the area of my paper.

I must disclose professional work in organizing the review process. Reviewers timely submitted all considered comments and very rigorous indeed. I recommend that all researchers publish their papers in WSEAS journals. Finally, I thank the magazine for considering the possibility of publishing my work and I hope that readers will find only high-quality scientific material in them.
