I declare, I confirm, I certify and I sign that I received substantial, important, line by line peer review with several and substantial comments, important remarks and hints from 7 Reviewers and the Assistant Editor for my paper: An Efficient Way of a Non-Hermitian Wavelet-based Signal Decomposition with Author: BORIS M. SHUMILOV.

I would like to thank all the reviewers for their thoughtful comments and efforts towards improving our manuscript. We revised the manuscript with special attention to the comments that we received from **Seven (7)** reviewers that were experts, specialists in the area of my paper. In case of violation of the

above terms, WSEAS can reject any unpublished paper or even retract any published paper.

For me, I am completely aware that the Journal WSEAS Transactions on Signal Processing is well known as a very valued journal in the sphere of data and signal processing including the spline and wavelet-based processing methods. This journal appeared to be my first successful Open Access publication resulting in many readings in Research Gate: Shumilov B.M., Baigulov A.N. A Study on Modeling of Road Pavements Based on Laser Scanned Data and a Novel Type of Approximating Hermite Wavelets // WSEAS Transactions on signal processing. 2015. Vol. 11. P. 150-156.

So I was very pleased to get the chance to be published again in this journal.

This was the fifth time that I sent a paper to your institution. I have the best impressions of the review process in the journals of WSEAS Publishing Company. The review process was a real peer-review process. I would like to express my heartfelt thanks and great respect for your remarks. All seven reviewers showed me aspects to improve my paper. The criticism regarding the introductory part (which was made more descriptive) as well as underpinning the results were accepted and corrections were made accordingly. Thank you very much for your generous suggestion and cooperation.
