I express my gratitude to the reviewers of my work for the favorable attitude and high appreciation of my work. I am grateful for all the comments made by the reviewers. I will take them into account in my future work.

Concerning the further direction of my work: everything that was done for the quantum electromagnetic field can be transferred to the electron-positron Dirac field; now I am working on it.

An «Addition» section has been added to the text, and a sentence before the conclusion has been added:

«Remark, that at here this pressure force does not depend on Hydrogen nucleus charge — cf. with force in Casimir effect.»
